THY WILL BE DONE ON EARTH existing wrongs. It asks for strength and courage to oppose them; for wisdom to oppose them with success and cause the regn of righteousness to come." Rev. Alex. Kent Says Humanity Is Struggling Toward This End.

It Refuses to Accept Eviland Injustice as Representing the Deity's Intentions or Manisfestations.

Rev. Alexander Kent at the People's Church resterday morning continued his series of scrmons on the Lord's Prayer. His text was "Thy will be done on earth as it is in heaven."

He pointed out first that all modern science tenches that God is in the universe directing the movements observed by men. Haecked and Herbert Spencer alike have come to the conclusion that even matter may be but a particular manifestation of force and materialism seems on the very verge of its final overthrow. Quoting Shaler, be said:

"It now seems as if the dispute with the minterialists will soon come to an end through the growing convictions of physicists, that all matter is but a mode of the action of energy," Then he stated Spencer's position as the Supreme Power. Spencer refrains from affirming that there is a personality, a personal God "in the conviction that the choice is not between personality and somehing lower than per-sonality, but between personality and something higher; that the Ultimate Power is no more representable in terms of huness than buman consci ess is representable in terms of plant functions.

The will of God is only for good, he further said. Any exhibition of power such as in the cyclone or earthquake is impotent to move man's higher pature. He may Tear it, but a cannot love it. It is only as he sees power wedded to goodness that the moral affections of his being are stirred and a spirit of reverence and obedience is awakened in his soul. It is only as that conception of God with which the prayer begins takes possession of the soul that man can truly pray. Thy will be done."

that man can truly pray "Thy will be done." He can not honestly pray that the will of a tyrant be done. But the will of our Father who art in Heaven, "even before the personal victory over appetite and passem has been won," is the spontaneous desire of the human soul.

"In corth." Tes, in earth. There is no ambiguity about the language. And yet it is the one phrase in the petition which orthodox and beterodox alike ignore and which they sleadily refuse to believe has any warrant in the ocnomy of this Universe. "Goodptople are ready enough to believe that God's will may be done in other worlds; that even how it is done in Heaven, but they think it incredible that it can ever be done on earth." There is, however, be says, a departure from this view among the greatlenders of the orthodox church and a tendency to devote time to the representation of the vorder. church and a tendency to devote time to the regeneration of the world as if the lope was to bring about the will of the Father here. But the great body of the people do not seem to believe there is any hope of salvation for human society.

Every proposal to shape our lindustrial and social institutions in accordance with that law of righteousness which require-us to love our neighbor as we love our elves is met with vigorous and persistent protest. We are told that human nature will have to be changed before any reform of that sort can be effected; that men are by hature lazy and selfish and only those motives which appeal to selfishness and to selfishsome on the lower plane, can overcome their lariness and induce the kind and degree of activity requisite to development and

But they don't inderstand that it is with others as it is with themselves. All are driven by stress of a system to make care of self-the first business of life. It isn't that human nature demands it, but that human character has not risen above it. Human nature is asking constantly that God's will may be done on earth as it is in heaven. Barrios' Plan for Union of All Central American States.

Bouilla to Be Removed from the Presidency of Honduras and Marco Soto to Be Appointed-Sensational Developments in a Short Time-Situation Is Pregnant with Significance.

Private advices received from Guatemala last evening indicate that sensational de-velopments affecting possibly the future of Central America may be expected within the next thirty days.

These advices state that President Bar-ries, of Guatemala, has formed a secret alliance with Costa Rica, looking to the formation of a union of all the Central American States, with Guatemala exercising the dominant influence in the new federa-

> BARRIOS' GREAT PLAN. Marco Soto filled for a number of years the office of President of Honduras. He owed his elevation to the chief magistracy to the powerful aid of Gen. Rufino Bar-rios, who was then the dictator of Guatemala, and easily the great political and military force in Central America.

> When Barries made war on Salvador, Soto refused to co-operate with him. Barrios at ooce incited a revolution in Honduras. Through his nid the revolutionists were successful and Soto was overthrown. It is doubtful if a word of his thoughtful discourse was lost to or on any member of the audience yesterday. figure, came to naught.

The Presidency of Gnatemata is now filled by another member of the Barrios lamily, a nephew of the distinguished dictator. It is claimed, without any qualification, that, following the example of his uncle, he will again use his influence to place Soto in the Presidency of Honduras.

Those who are familiar with the political conditions in the little Latin-American republics say that a new revolution can be easily started in Honduras composed of the disastisfied elements how out of power, with Soto at their head, and that these, with the assistance of Gnatemalia.

these, with the assistance of Guntemalia, Honduras, and Costa Rica, therefore, would practically dominate the situation.

President Barrios, of Guntemalia, it is said, is the more destrous of this new aliminee, inasmuch as at present Honduras, Nicaragua, and Salvador are closely allied.

This trio of republics, which are contiguous to each other, forms a geographical wedge, so to speak, between Guntemala on the north and Costa Rica on the south.

SOME DIFFICULTIES that they were for a light and guide to all nations. His laws were not for the tribe of Moses and the Jewish race, but for the world at large.

This incident in the history of Moses, every word and line of which he said be SOME DIFFICULTIES.

Without the active co-opera-lon of one of the three it would be difficult for Guatemala and Costa Rica to assume an offensive attitude toward the remainder. The withdrawal of Honduras from the triple alliance and her co-operation with the other republics would give to the something better or an equivalent. As a supreme illustration of this teaching. Dr. Hoge referred to the prayer of Christ in the garden of Gethsemane, in which he prayed that the bitter cup might pass away from him, but it had been ordered latter a preponderance of power, the value of which can be readily appreciated. To what extent President Barries can carry through his programme can only be con-jectured, but it is believed in Guatemala that he will succeed.

What renders his plan the more feasible is the hereditary entity of lack of comity, at least, which exists between Costa Rica and Nicaragua. Costa Rica, it is said, would delight to see her ancient enemy. Nicaragua, humbled

her ancient enemy, Nicaragua, humbled, as she would necessarily be if compelled perforce to join a Central American feder-ation, the controlling influence of which would be friendly to Costa Rica. Should Nicaragua, on the other hand, decline to join the union, she would still be at a disadvantage in that sie would enjoy none of the benefits which would result from it. The situation, therefore, is pregnant with significance and future developments are a waited with interest by the political leaders. in all of the Central American States by

It was a fact that the proprietors of liquor stores who persisted in violating the law were more wary than ever before, and that they manifested a wholesome dread of the citizen spy. LIEUT. HOLLINBERGER'S ACTION. Explanation of His Failure to Send a

Detective After Frank Smoot. Some criticism of Inspector Hollinberger in the matter of the arrest of Frank P. Smoot, who ran away with \$2,000 be-longing to Major H. L. Biscoe, his employer, recalls an unpublished incident of the arrest of Poindexter for stealing Dominic Rickenbacker's seventeen watches. This neident throws some light upon Lieut. It was just after Detective Lacey had returned from New York the second time that Clerk Sylvester came in and complained of the expense made by sending Lacey after Poindexter. He said it had cost \$250 to bring the Blen and the watches \$50 to bring the men and the watches back from New York. There was no reason for sending detectives from here for this work, as everything could have been done just as well by a United States deputy marshal, who would have de-livered the offender and the property, just as had been done in numerous instances

With the prospect that Major Biscoe would not prosecute there was far less reason for having a desective take the much more expensive trip to Fort Wayne.

inhabitants of our world generally may with propriety be addressed the words of the text. 'There standeth one among you whom ye know not.'

'In what respects may Christ be said to be present in the world? He is essentially present. As God he is present everywhere. In every assembly of angels or men, whether for worship of God or of Satan, he is essentially present. Christ is present in our world by a preached gospel. When he ascended on high he gave this commission to his disciples and the same me."

The passage of Scripture was selected from the 26th chapter of the Acts.

"Christians must show that Christ has a place in the world," said the speaker.

"Men are beginning to look for God not only in the sanctuary, but also along the lines of daily bosiness; not only through prayer in the closet, bytin communion with fellow-men. "That saloon-keeper was mistaken when

per when he accessed on high he gave this commission to his disciples and the same extends to their successors in office, the ministers of the gospel. Go ye and teach all nations, baptizing them, to observe all things whatsoever I have commanded you, and he accompanied the commission with this promised: "Lo, I am with you always, even unto the end of the world." This is a precious promise to the real minister of the Lord, Jesus Christ. "Finally this subject speaks terror to the wicked. Christ, your judge, is ever with you. He is a witness of all your conduct. Break off your sins by righteousness and your iniquities by turning unto the Lord. Seek to know him whom to know is everlasting life. Acquaint now yourselves with him and be at peace, thereby good shall come unto you." the said the saloon belongs to politics by the divine right of discovery. Many go upon the theory that 'business is business,' and adopt the policy of 'get all you can and keep all you get.' There are exceptions to this rule, but does that principle conduce to the highest type of piety?
